## CD NO.

DATE DISTR. 21 Dec 51

NO. OF PAGES 2

NO. OF ENCLS.  
(LISTED BELOW)

SUPPLEMENT TO  
REPORT NO.

THIS IS UNEVALUATED INFORMATION

An artillery emplacement is located in the woods 600 kilometers from the shore. It is armed with one cannon, caliber unknown, and an anti-aircraft machine-gun.

An artillery emplacement is located here, but no further details are known.

a. In the Lekures ruins, a coastal battery of 3 cannons has been emplaced. Anti-aircraft protection is afforded by 3 or 4 machine-guns. The emplacement is manned by 25 men, and has a radio transmitter.

b. Two coastal guns and three anti-aircraft machine guns are located in the old monastery. Another radio transmitter is located here, as well as a munitions depot.

An artillery emplacement is located near the lighthouse, but no further details are available.

A battery of large-caliber cannons is located in the castle here.

The emplacements constructed by the Italians in this zone have been restored, but it is not known how many pieces are emplaced.

An artillery emplacement is located above the castle, on the road to Vlone. A radio transmitter is also located here.
